Q. On June -- let's start with June 12th, if you remember June -- if you know anything about June 12th specifically.

A. So June 12th specifically, I don't know exactly, you know, what the -- you know, I would have to look at the record to see which dumpsters we had taken and which ones we were returning, but when I -- when I read this, you know, what I -- what I remember, you know, from that time is that we were always aiming to make sure that if a con- -- if a customer could safely store their containers, then we would, you know, absolutely return them and have designated times for pickup.

If they did not have containers that they could safely store, we were working with them and calling them to provide for alternative approaches that would -- you know, such as bagging their garbage, and then we would have a regular pickup for -- for all of -- all of those bags.

Q. Where would the bags be picked up?

A. For some of them, from in front of their properties and, you know, some preferred, you know, a designated away -- area away from their properties, I believe. And we also -- I do also, you know, remember

A. If -- there -- there were a couple days that I remember that, you know, I -- I had to call it off, but it -- but I do remember that on the whole, that we were able to keep things very clean because I was there and would sometimes move the bags to the large dumpsters, or other people from Seattle Public Utilities would be there, and so I do not remember a large accumulation of -- of litter or trash bags.

Q. But you do recall that there were some days where you couldn't go in and get the trash at all; is that correct?

A. That we would just leave it there for a -- a day? I -- I'm trying to remember an accumulation where we would leave it for a whole day, and I don't -- I don't recall -- I don't recall that, but if we -- that we wouldn't do anything. But, you know, it -- it's possible that there might have been, but, you know, we made -- we did our level best to make sure that all litter and garbage was picked up that was, you know, in bags on the -- you know, in the right-of-way.

Q. Okay. Going back up to the customer waste services and the last section in that paragraph -A. Could you go -- tell me what page you want me

A. Could you go -- tell me what page you want to go to?

Q. The same -- the same page that we've been on,

Page 29 Page 31 the first page. It's just the paragraph on June 12th 1 1 and trash did not accumulate in the area during the 2 that indicates Customer Waste Services. 2 period of June 8th to July 1, 2020? MR. CRAMER: Object to form. 3 A. Okav. 3 Q. And the last sentence of that. I'm A. I feel like that question is ambiguous for me. 4 4 5 specifically going to ask about the last sentence of 5 I don't know exactly what you mean. If you mean, like, that paragraph. This seems to indicate that there were 6 6 did -- was there ever a garbage bag on the street, then 7 still customers without their own waste containers in 7 garbage bags were put on the street for collection. And the area. Is -- was that -- was that accurate, that as 8 so I don't know if that defines an accumulation. I'm 8 9 of June 12th, there were not -- there were some people 9 not sure -- could you -- maybe you could define for me 10 who didn't -- still didn't have their garbage cans or 10 what you mean for, like -- is -- do you mean for like a 11 dumpsters? 11 duration, a period of time? Like could -- could you 12 A. I believe that there were some customers 12 be -- could you -- I -- I -- because I know that you --13 that -- whose -- whose containers had been taken, but, 13 you want me to answer this question. I really want to 14 you know, we coordinated with them so that their trash 14 help you. 15 would be removed even if their containers were not BY MR. WEAVER: 15 16 16 Q. Okay. So there was -- let me ask you this: Q. And part of what -- part of your coordination 17 17 There was -- on July 1, 2020, do you agree with me the 18 of that was to provide large shared dumpsters at a 18 park was closed on July 1, 2020, Cal Anderson Park? 19 couple intersections in the area; is that right? 19 A. What do you mean? Do you mean like it was closed by the Parks Department? Is that what you mean? 20 A. The large dumpsters were a part of an overall 20 strategy to ensure that no debris or, you know, garbage Q. Closed by the City on July 1, 2020. Do you --21 21 would collect in that area. 22 22 do you agree with that? Q. So am I understanding you to -- your testimony 23 23 A. I would have to look at the notes just to 24 to be that large amounts of garbage did not accumulate 24 confirm the exact date was July 1st. 25 in the area during the period of June 8th to July 1, 25 Q. Okay. So let me ask you this: When -- when Page 30 Page 32 2020? 1 the park was initially cleared after CHOP had been there 1 A. Overnight near the park, because there were 2 and the barricades were removed from the streets, do you 2 several houseless people, or many houseless people in 3 recall whether there was any trash in the area that had 3 the park, you know, there would be a large pile of to be cleaned up? 4 4 garbage at times, you know, in -- near the dumpsters, A. After July 1st? 5 5 6 you know, because there was more than the dumpster- --6 Q. Once --7 but we said we up -- we had to upsize the dumpster 7 A. Or --8 there. If I recall, I received -- I received a -- a they might have had some bags next to their dumpsters, 11 11 complaint from Nagle Place where a -- it's an alley that 12 but those were always collected. 12 has a lot of construction, and there were houseless 13 Q. What do you mean by "upsizing the dumpsters"? 13 folks in the park, and there were -- just -- there was 14 14 A. The -- at -- down at 12th and -- sorry -- 11th just a lot of activity on the alley, and so I received a 15 and Olive, I believe that we moved to a larger dumpster 15 complaint that there had been some trash accumulating, 16 at some point that could accommodate the full -- the 16 and we addressed it -- I believe we addressed it that --17 17 full need. immediately that day. 18 Q. Anybody could use it? 21 if houseless folks were still in the park. 22 A. Those dumpsters were provided for everyone's 22 Q. How about garbage that wasn't in bags or in 23 use so that no debris or trash would accumulate in the 23 dumpsters? Did you ever observe that while you were in 24 24 the zone between June 8th and July 1, 2020? 25 25 A. If I recall correctly, the -- the area was Q. Okay. Again, is it your testimony that debris

incredibly clean. It was, you know, people -- lots of residents and businesses noted to me that it was cleaner than it had ever been because there were people continually cleaning the area. So while there may have been an instance or two when overnight, you know, after a protest that there may have been litter on the street, you know, we -- we aimed to continually pick it up on a daily basis.

Q. But you didn't necessarily pick it up every day on a daily basis; is that right?

MR. CRAMER: Objection. Form.

A. You know, I was there every day, and I don't remember a large accumulation of garbage on the street. And if I had seen a lot of garbage, I would have addressed it or people that I was with would have addressed it. Even if we had called off garbage services, we still had people on foot who were still, you know, monitoring and addressing issues.

Q. All right. I'm going to mark and drop into the chat Exhibit 4. It should be there.

A. Oh, I should note, though, there was a short period of time that I did have to leave town and Idris Beauregard had -- had to pick up from -- you know,

keep everybody apprised of any emergency operations re- -- Emergency Operations Center or other point of contact notifications or advice.

Q. Okay. So with regard to this specific email, Exhibit 4, do you recall that initially it was determined from the operations center that there should be a four-block radius no-go zone around the east precinct?

Page 35

Page 36

A. This email is from, I think, just -- just as a -- very beginning, this is based on Seattle Police recommendation, but also, I think, you know, there was some ambiguity about their recommendation about whether it meant that, you know, what -- exactly what they meant, and so this -- this -- this prompted me to do an on-site assessment, myself. I believe -- you know, because our -- our services are essential and, you know, we need to continue to manage public health and provide our services.

So, you know, this was -- I believe this was just based -- this -- this is just Chad relaying what police was providing based on their interpretation, and so, you know, he was communicating that to everybody, but that was not -- kind of a -- you know, a -- a directive from -- from me or from my assessment.

Q. So you don't think you were involved in this

Page 34

picked up my on-site assessments, you know, assessments and work, but I was there almost every day.

Okay. I have opened up your attachment.

Q. Okay. Who is Chad Buechler? And let me know if I'm pronouncing that correctly.

A. At that time Chad was an advisor to our emergency management group, or not -- I mean, he was a staff person. He is currently now the head of our emergency management group at Seattle Public Utilities.

Q. Okay. What was his role during this time period of June 8th to July 1st with regard to providing updates on whether people should go into the zone or not?

A. Chad did not make those determinations. Chad's role from Seattle Public Utilities is to -- well, is generally and during that time, is to coordinate with the City's Emergency Operations Center, our Operations Response Center, and at that time with me directly. And so the assessments about whether -- what we would do would come from -- from -- from me based on my -- my field assessment every morning.

Q. And then Chad - was Chad's role to then take what that decision was and then let everybody in the department know what the situation was?

A. It was, and it's also his responsibility to

particular email before it was sent? Is that what you're saying?

A. You know, I might have asked Chad to share. I don't remember exactly. But I might have asked Chad to always make sure to share whatever the police or others were providing; right? But -- yeah. I mean, this is -- this is -- this is Chad's relay of the police's assessment.

Q. Okay. So you were -- you were copied on this email, it appears. Did you indicate to people, well, we're not going to follow the police. I'm going to go in and reassess it and let you know if you should go in, or did people just not go in?

A. On that day?

Q. On that day.

A. So can you remind me exactly which -- what was the date that the -- that the protesters put barriers up?

Q. My understanding is that happened the night of June 8th, when the -- the police left the station on June 8th.

A. You know, I don't think that I just said, don't -- disobey what the police are saying. What I did was I just went over to do my own reconnaissance to -to assess the situation. And then based on my own

Is there an indication of -- in this email of 14 A. I don't remember who asked me or who asked the 15 when that was? Because they may have been trying to 15 parks, you know, to manage their light -- that -- the 16 16 initially start to clear the park and, you know, that hours of the lights, but it's possible that, you know, 17 that would be part of, you know, that work. 17 people in the park asked, or -- or residents, you know. 18 Q. Although -- yeah. 20 people in and out, but, you know, this is -- this is a 20 Q. Well, whether or not it was a dominant topic of 21 21 discussion, did you hear people voice that while you really strange time. So it was a wide variety of -- of comments. 22 were with the mayor? 22 23 Q. Do you recall, while you were with the mayor, 23 A. With the mayor? I think -- it's possi- -- it 24 any of these businesses indicating that they believed 24 is possible that the business owner at -- that -- that 25 they had lost revenue as a result of the occupation? 25 one of them mentioned that. I just can't remember what Page 106 Page 108 A. I don't remember exactly about who -- who --1 she said exactly, and if it was about her own physical 1 who might have said that. 2 2 safety or she was -- just a general kind of concern. Q. Do you recall that someone said that? 3 Q. Do you recall at other times when you were in 3 A. I mean, I -- I -- I honestly don't remember 4 the area, not with the mayor, people expressing to you 4 5 specific inc- -- incid- -- incidents of that, but it's 5 that they did not feel the area was safe to be present 6 6 7 Q. Did you hear that at other times, maybe when 7 A. You know, I heard from people that at night, the mayor wasn't there? Did you hear that at other 8 8 that people felt that it could be -- get -- feel -- that 9 9 points, that businesses were losing revenue? it felt unsafe sometimes, to some people. 10 MR. CRAMER: Go ahead. 10 Q. Do you recall, while you were with the mayor, 11 11 A. There was one business owner who told me that going back to the meeting before, hearing from people 12 their -- their revenues at their liquor store were down, 12 who were either businesses or permanent residents in the 13 13 area that the conditions in the area would deteriorate yeah. THE COURT REPORTER: I'm sorry. Mr. Cramer, 14 in the late hours of the evening and into the night? 14 I only heard "go ahead." So if you said "objection" 15 15 A. I -- I heard that more later, you know, before that, it didn't come through. 16 16 afterwards, that people said, oh, wow, at night it would MR. CRAMER: I think it was just form. 17 17 be very different, you know, or somewhat different for THE COURT REPORTER: Okay. Thank you. 18 18 some people. Because I would not -- normally not be 19 BY MR. WEAVER: 19 there at night except for, you know, I think I was there 20 Q. Do you recall, when you were with the mayor on 20 a night or two. And, you know, myself, I didn't 21 this tour of businesses and talking to residents, 21 perceive the -- maybe it was just the time that I was 22 anybody voicing the concern that the protesters on or 22 there, it was not as different --23 near the barriers were intimidating towards people 23 Q. Okay. 24 entering the area? 24 A. -- or it wasn't very different. 25 25 A. This is another -- this is a situation where Q. What can you tell me about what you recall
